LINE-UP CARDS SUMMARY
AYSO uses line-up cards to ensure that each player gets the minimum amount of playing time, as well as to keep track of game scores and goal scorers. Filling out the cards correctly is essential to making sure the games are played according to AYSO’s principles.
Each team’s coach will provide a filled out line-up card to the Referee team. It should include players’ names and jersey numbers. It should also include the general game information: Region, Age Group, Names of Teams and Coaches, the Team Number and Date of Play.
It is the Assistant Referees’ responsibility to keep track of substitutions, the player in goal and goals scored during the game.
If a player sits out for a quarter, it is marked on the card with an X.

In this game, players 3 and 6 sat out the first quarter.
If a player plays in the goal for a quarter, it is marked on the card with a G.

In this game, players 10 and 11 played goalie in the 3rd and 4th quarters, respectively.
If a player on the card is absent, it is denoted with an A.

In this game, player 12 was absent and therefore received an A for each quarter of the game. It’s also common to draw a line through a player’s name when she is going to miss the entire game. If the player is merely late, do not strike her name.
Individual goal tallies are recorded by halves.

In this game, player 2 scored in the first half, and player 6 scored twice in the second half.
